

YHMAN Progress

Ed Carter has the latest news on the YHMAN.

YHMAN Progress

The Yorkshire and Humberside Metropolitan Area Network (YHMAN) has been making rapid progress over the last few months. At Easter the network went into operation, interconnecting eight of the region's

universities with high speed links to the new SuperJANET III network.

Over the summer a contract was signed with 17 North Yorkshire and Humberside FE Colleges, covering a large geographical area including Craven, York, Scarborough, Bridlington, Hull, Grimsby and Scunthorpe. Work will continue over the Autumn to connect these colleges to the YHMAN via the nearest university. The pictures show installation at Hull in progress by the UCS YHMAN support team.
